MATHEMATICS OF THE USSR—IZVESTIYA

ИЗВЕСТИЯ АКАДЕМИИ НАУК СССР

Том 49, №№ 1–3, 1985

Volume 26, Numbers 1–3 Pages 1–624

Volume Index of Authors

Aleksandrov, A. G. Cohomology of a quasihomogeneous complete intersection 437

Alekseev, V. N. On bundles of collineations and null-systems of projective spaces 211

Ayupov, Sh. A. *JW*-factors and antiautomorphisms of von Neumann algebras..... 201

Babich, M. V., Bobenko, A. I., and Matveev, V. B. Solutions of nonlinear equations integrable in the Jacobi theta functions by the method of the inverse problem, and symmetries of algebraic curves..... 479

Batyrev, V. V. On some numerical characteristics of multidimensional Fano varieties 423

Bloshanskiĭ, I. L. Two criteria for weak generalized localization for multiple trigonometric Fourier series of functions in L_p, $p \geq 1$ 223

Bulitko, V. K. Boolean classes of Turing reductions 1

Dao Chong Tkhi [Dao Chong Thi] Isoperimetric inequalities for multivarifolds 289

Drozhzhinov, Yu. N. and Zav'yalov, B. I. Asymptotic properties of some classes of generalized functions..... 77

Fedoryuk, M. V. Scattering of a plane wave by a cylindrical surface with a long perturbation 153

Grudskiĭ, S. M. Singular integral equations and the Riemann boundary value problem with infinite index in the space $L_p(\Gamma, \omega)$ 53

It·s, A. R. "Isomonodromy" solutions of equations of zero curvature 497

Karatsuba, A. A. On the zeros of the function $\zeta(s)$ in the neighborhood of the critical line 307

Kazimirov, V. I., Plotnikov, V. I., and Starobinets, I. M. An abstract scheme for the method of variations and necessary conditions for an extremum 133

Khoang Le Min' [Hoang Le Minh] Green functions and cohomology..... 405

Krushilin, N. G. Local automorphisms and mappings of smooth strictly pseudo-convex hypersurfaces..... 531

Markushevich, D. G. Canonical singularities of three-dimensional hypersurfaces... 315

Razmyslov, Yu. P. Simple Lie algebras satisfying the standard Lie identity of degree 5..... 553

Salikhov, V. Kh. On the algebraic irreducibility of the set of linear differential equations..... 185

Sevast'yanov, E. A. On an estimate for the smallness of sets of points of non-differentiability of functions as related to the degree of approximation by rational functions 347
Shokurov, V. V. The nonvanishing theorem 591
Shubin, M. A. Pseudodifference operators and their Green's functions 605
Teterin, Yu. G. An asymptotic formula for the number of representations by totally positive ternary quadratic forms 371
Varchenko, A. N. On the local residue and intersection form on the vanishing cohomology 31
Vostokov, S. V. Explicit construction of class field theory for a multidimensional local field 263
